

## BS7412

This is the kite mark awarded by the British Standards Institute that relates to the construction and performance of uPVC windows and doors. It means that our doors and windows, and their components meet the required standards including strength, security, weather tightness, acoustic performance and energy conservation. In fact, Euroglaze products very often exceed these requirements so that you can buy with total confidence.

## ISO9001

This means that the processes that we use, in every aspect of our business, meet the requirements of the International Organisation for Standardisation. Its purpose is to assure you, our customer, that we have processes in place which can provide quality products and services.

## Secured by Design

We can manufacture windows and doors to the specification that satisfies the exacting standards of the Secured By Design board.

## BS7590

In instances where it is necessary to offer increased security performance, Euroglaze can manufacture products that meet these requirements. They are built to resist prolonged forced entry, and provide additional peace of mind.

## PAS23/24

Our doors and French doors can also be manufactured to a specification that offers a certified level of security.

## Constructionline

Euroglaze are registered with CONSTRUCTIONLINE who pre-qualify their members to government standards, saving you time and money in the tendering process.

## FENSA

Euroglaze are registered with FENSA, the industry standard for replacement window and door installers. This means that the consumer will be protected and the installation will comply with the latest Building Regulations.

## Certass

In addition to A rated windows, certified by Certass, Euroglaze can manufacture uPVC windows that are the most thermally efficient available on the market today.

## Investors in People

Everyone at Euroglaze is encouraged to do things better and our workforce is well motivated and knowledgeable. We train them in skills that will enable them to work more efficiently and in ways that will make life easier for our customers.

## Mas Exemplar Company

The Manufacturing Advisory Service and Department for Trade and Industry have acknowledged the excellence of Euroglaze products and processes. When you deal with us you will be forming a working relationship with a company that has been used, by both of these organisations, as an example to others of excellence in manufacturing.

“We have used Euroglaze for approximately 10 years and on many contracts. We have found them to be very reliable and competitive and have always received an excellent quality product. We would be confident in recommending Euroglaze to any council as their preferred supplier of uPVC windows and doors.”

Blackpool Borough Council Mr Grant Dickason

## Quality, value and service, it's why we've been on sites around the UK for over 30 years.
